

CLEANING HINTS: PREVENTIVE CLEANUP

Clean well beyond the working space or area in order to reach all soiled areas, and always work in a pattern of overlapping strokes:

- The areas around handles on cupboards and appliances, switch plates, and doorknobs are likely to have finger marks.
- There are usually splashes and drips on the counter and walls near the coffee maker.
- Check the wall behind the trashcan for dirt and splatters.
- If you spill something on the counter, it usually runs down the outside front of the cupboard door, as well as inside it.
- When making spaghetti sauce, it is likely that there are splatters on the stovetop, the counter, and walls.
